TITLE 10—ARMY: WAR DEPARTMENT

Chapter X—Areas Restricted for National  
Defense Purposes

[Public Proclamation No. 12]

PART 102—CONTROL OF LIGHTING WITHIN  
RESTRICTED ZONES

WASHINGTON, OREGON AND CALIFORNIA; ZONE  
OF RESTRICTED LIGHTING

Headquarters Western Defense Com-  
mand and Fourth Army, Presidio of  
San Francisco, California.

October 10, 1942.

To: The people within the States of  
Washington, Oregon and California, and  
to the Public Generally:

Whereas, current developments and  
further investigations indicate the mili-  
tary necessity for certain changes in and  
additions to the provisions of Public  
Proclamation No. 10, dated August 5,  
1942; this Headquarters:

Now, Therefore, I, J. L. DeWitt, Lieut-  
enant General, U. S. Army, by virtue of  
the authority vested in me by the Presi-  
dent of the United States and by the  
Secretary of War and my powers and  
prerogatives as Commanding General of  
the Western Defense Command, do  
hereby declare that:

1. The present situation requires as a  
matter of military necessity that sections  
2, 3, and 5 (paragraphs (b), (c) and (e)  
of § 102.1) of said Public Proclamation  
No. 10 be, and they are hereby amended,  
as of the effective dates hereinafter pro-  
vided, so that said Public Proclamation  
No. 10, from section 1 to 5, (paragraph  
(a) to (e) of § 102.1) inclusive, will read  
as follows:

§ 102.1 *Zone of restricted lighting;*  
*Washington, Oregon and California.* (a)

The present situation requires as a mat-  
ter of military necessity that a zone of  
restricted lighting be established within  
Military Areas Nos. 1 and 2, and that il-  
lumination within said zone of restricted  
lighting be extinguished or controlled in  
such manner and to such extent as may  
be necessary to prevent such illumination  
from aiding the operations of the enemy.

(b) Pursuant to the determination  
and statement of military necessity in  
paragraph (a) of this section, a Zone of  
Restricted Lighting, as particularly de-  
scribed in Exhibit A hereof,<sup>1</sup> and as gen-  
erally shown on the map made a part  
hereof and marked Exhibit B,<sup>2</sup> is hereby  
designated and established. Illumina-  
tion within the entire area of said zone  
of restricted lighting shall be extin-  
guished or controlled at all times at night  
from sunset to sunrise, as follows:

(1) *Signs, floodlighting, display and  
interior lighting.* Illuminated signs and  
ornamental lighting of every description

which are located out-of-doors, and  
floodlighting which illuminates buildings  
or signs (including but not limited to all  
exterior advertising signs, billboards,  
display lighting, theatre marquee signs,  
illuminated poster panels, and building  
outline lighting), and all interior light  
sources (as hereinafter defined) which  
emit direct rays above the horizontal out-  
of-doors, shall be extinguished. The  
words, "light sources," as used herein are  
intended and shall be construed to mean  
and include any light generating ele-  
ments and the bright portion of any re-  
flector, lens, luminaire, transparency, or  
other equipment associated herewith for  
the control or diffusion of light. This  
paragraph (b) (1) shall not apply to il-  
lumination for industrial or protective  
purposes except to the extent provided  
for in paragraph (b) (2) of this section.

(2) *Illumination of outdoor areas;*  
*street and highway lights.* Illumination  
of outdoor areas and industrial and pro-  
tective illumination, shall be controlled  
as follows:

(i) Except as provided in paragraph  
(b) (2) (ii) of this section, illumination  
on all outdoor areas (including but not  
limited to automobile service station  
yards, outdoor parking areas, recreation  
areas and outdoor structures and roofs)  
shall not exceed one foot candle at any  
point when measured on a horizontal  
plane at any level of such outdoor areas,  
and all outdoor light sources shall be  
shielded so that no direct rays from the  
light source are emitted above the hori-  
zontal. All interior lighting of every de-  
scription shall be reduced or controlled  
so that it does not contribute more than  
one foot candle of illumination upon any  
outdoor area. All street and highway  
lights shall also be shielded so that each  
light source emits no more than ten per  
cent of its total lamp lumens at angles  
above the horizontal. Provided the fore-  
going requirements are met, any further  
reduction or extinguishment of street or  
highway illumination which would un-  
necessarily aggravate traffic hazards is  
not required.

(ii) Variation from the foregoing re-  
quirements shall be permitted in the case  
of illumination for industrial and protec-  
tive purposes, and from industrial  
processes, whether interior or exterior,  
but not including street or highway  
lights, only when and to the extent that  
it is necessary to vary from such require-  
ments in order to achieve and maintain  
maximum efficiency; but only with the  
written approval of the Ninth Regional  
Civilian Defense Board, obtained in  
advance.

(3) *Traffic signs and signals.* Illumi-  
nated signs and signals which are au-  
thorized or maintained by governmental  
authority for the purpose of controlling  
or directing street or highway traffic shall  
be shielded so that no direct rays from  
the light source are emitted above the

horizontal in respect to lights mounted ten feet or more above the ground, or above an angle of more than six degrees above the horizontal in respect to lights mounted less than ten but more than three feet above the ground, or above an angle of more than twelve degrees above the horizontal in respect to lights mounted less than three feet above the ground. Relative variations in the upward limit of light are permissible to compensate for grades.

(4) *Navigation and railroad lights.* Authorized lights necessary to facilitate air or water navigation, authorized railroad signal lights, and headlights of railroad locomotives when in motion, are hereby excepted from all the provisions of this proclamation.

(c) In addition to the restrictions hereinbefore imposed, illumination within that part of the zone of restricted lighting which is visible from the sea, as hereinafter defined, shall be further diminished or obscured at all times at night from sunset to sunrise, as follows:

(1) *Street, highway and traffic lights.* Street and highway lights, and illuminated signs (but not signals) which are authorized or maintained by governmental authority for the purpose of controlling or directing street or highway traffic and which are visible from the sea, shall be so shielded that they are not visible from the sea at night and so that no direct rays from the light source are emitted above the horizontal.

(2) *Residential, commercial and industrial windows.* No lighting shall be permitted behind windows or glazed doors visible from the sea unless they are covered by drapes or shades.

(3) *Street and highway traffic.* Within areas visible from the sea, but subject to the exceptions hereinafter stated, vehicles shall operate at night with no more than two lighted driving lamps, regardless of the direction of travel, and each such lamp shall provide a maximum of not more than 250 beam candlepower. Normal rear lights, license plate lights and clearance lights (where required by law) are permitted. Vehicles which are classified as authorized emergency vehicles under the applicable Federal, State or local law, when operated by authorized personnel, and when displaying an illuminated red spotlight, and when responding to a fire alarm, or when in the immediate pursuit of an actual or suspected violator of the law, or when going to or transporting a person who is in apparent need of immediate emergency medical or surgical care, or when responding to some other emergency involving the protection of life or property, shall be excepted from the foregoing provision.

(4) *Industrial and protective illumination.* Light sources for industrial purposes and light from industrial processes within areas visible from the sea, shall comply with the requirements of paragraph (b) (2) of this section, and shall also be shielded so that they are not visible from the sea at night: *Provided*, That variations from these requirements may be permitted in the case of illumination for industrial and protective purposes, and from industrial processes, whether interior or exterior (but not in-

cluding street or highway lights), only when and to the extent that it is necessary to vary from such requirements in order to achieve and maintain maximum efficiency; but only with the written approval of the Ninth Regional Civilian Defense Board, obtained in advance.

(5) *Other illumination.* Except as hereinabove provided in paragraph (c), all other lights visible from the sea are prohibited at night, including but not limited to light from fires, bonfires, parked cars, flashlights and lanterns.

(6) *Definition of "visible from the sea."* The phrase "visible from the sea," as used herein, is intended and shall be construed to mean and include the following:

Visible at any time from the waters of the Pacific Ocean, or from the waters of the Straits of Juan de Fuca lying south of a line extending due east from the most southerly point of Vancouver Island and west of a line running due north and south through the easternmost point of the easterly boundary line of the City of Port Townsend, Washington, or visible from any of those bodies of water located on the shoreline of the State of California generally known and described as follows:

Santa Monica Bay;  
Santa Barbara Channel;  
San Luis Obispo Bay;  
Estero Bay; and  
Monterey Bay;

*Provided, however,* That the waters of San Francisco Bay, lying easterly of a line extending from Point Bonita through Mile Rock, is not intended and shall not be construed to be a part of the sea; and solely for the purposes of paragraph (c) (3) of this section, concerning street and highway traffic, the phrase, "areas visible from the sea," is also intended and shall be construed to mean and include that portion of streets or highways which may not in fact be visible from the sea but which is within areas generally visible from the sea.

(d) Any person violating any of the provisions of this proclamation, or orders issued pursuant thereto, is subject to immediate exclusion from the territory of the Western Defense Command, and to the criminal penalties provided in Public Law No. 503, 77th Congress, approved March 21, 1942, entitled "An Act to provide a penalty for the violation of restrictions or orders with respect to persons entering, remaining in, leaving, or committing any act in military areas or zones."

(e) The Ninth Regional Civilian Defense Board is hereby designated as the primary agency to aid in the enforcement of the foregoing provisions. It is requested that the civil law enforcement agencies and State and local governmental bodies within the areas affected by this Proclamation assist the Ninth Regional Civilian Defense Board in the enforcement hereof.

2. This proclamation shall become effective October 25, 1942, except those provisions of paragraph (b) (2) (i) hereof, concerning street and highway lights, which shall become effective November 12, 1942.

3. The recitals set forth in the first three paragraphs of said Public Proclamation No. 10 are hereby reaffirmed. Except as hereinbefore expressly amended, all the provisions and determinations expressed in said Public Proclamation No. 10 shall remain in full force and effect.

Commanding.

#### PART 1010—SUSPENSION ORDERS

[Suspension Order S-112]

CITY OF PAWTUCKET, RHODE ISLAND

The City of Pawtucket, Rhode Island, has for some time been engaged in the construction at Hammond Pond Park of a park, playground, and recreational

<sup>17</sup> F.R. 8179.

project and the erection of a municipal stadium and other buildings. The project is incomplete but during the period immediately prior to June 1, 1942, the principal baseball field and a large grandstand and bleachers overlooking it were completed. On June 8, 1942, the City gave an order to certain contractors to construct a chain link fence costing \$8400 and do certain other work. Shortly thereafter the chain link fence was placed in position around the field and the other work done.

Supplementary Conservation Order No. L-41-a<sup>1</sup> provided that any construction primarily for the amusement of the public, with the exception of strictly temporary construction and playgrounds for children, should be terminated on June 6, 1942. An athletic field of this type, equipped with a large grandstand is not strictly temporary construction nor is it a playground for children. Therefore, the construction of the chain link fence and the other work constituted a violation of Supplementary Conservation Order No. L-41-a. At the time the City ordered this construction, it was fully aware of the restrictions contained in Supplementary Conservation Order No. L-41-a<sup>1</sup> provided that any construction unreasonable and unjustified construction of the provisions of said order.

This violation of Supplementary Conservation Order No. L-41-a has hampered and impeded the war effort of the United States by diverting scarce materials to uses unauthorized by the War Production Board. In view of the foregoing, *It is hereby ordered:*

§ 1010.112 *Suspension Order S-112.* (a) The City of Pawtucket, Rhode Island, is hereby directed to take down and remove the chain link fence partially surrounding the athletic field at Hammond Pond Park which fence was installed in violation of Supplementary Conservation Order No. L-41-a and is further directed thereafter not to dispose of the said fence except to the Army or Navy of the United States or as specifically directed by the Director General for Operations.

§ 1399.2 *Maximum rental prices—(a) Daily basis.* For any construction or road maintenance equipment leased by the day and:

(1) Which is not in actual use for more than 8 hours during one daily period, the maximum rental price shall be the rental price calculated upon the basis of the applicable rate "per day" in the Table of Rates set forth in Appendix A, incorporated herein as § 1399.15;

(2) Which is in actual use for more than 8 but not more than 16 hours during one daily period, the maximum additional rental price for such additional use shall be the rental price calculated upon the basis of 50% of such applicable rate "per day";

(3) Which is in actual use for more than 16 hours during one daily period, the maximum additional rental price for the total additional use over 8 hours shall be the rental price calculated upon the basis of 100% of such applicable rate "per day".

(b) *Weekly basis.* For any construction or road maintenance equipment leased by the week and:

(1) Which is not in actual use for more than 48 hours during one weekly period, the maximum rental price shall be the rental price calculated upon the basis of the applicable rate "per week" in the Table of Rates set forth in Appendix A, incorporated herein as § 1399.15;

(2) Which is in actual use for more than 48 but not more than 96 hours during one weekly period, the maximum additional rental price for such additional use shall be the rental price calculated upon the basis of 50% of such applicable rate "per week";

(3) Which is in actual use for more than 96 hours during one weekly period, the maximum additional rental price for the total additional use over 48 hours shall be the rental price calculated upon the basis of 100% of such applicable rate "per week";

(4) Which remains in the possession of the lessee for a part of a weekly period beyond one or more full weekly periods, the maximum rental price for such part of the weekly period shall be the higher of the following: (i) 1/7th of the applicable rate "per week" for each daily period, or part thereof, of possession or (ii) 1/48th of the applicable rate "per

week" for each hour, or part thereof, of actual use: *Provided*, That if such equipment is in actual use during such part of a weekly period for more than 48 hours, the maximum rental price for such part of a weekly period shall be the rental price determined in accordance with subparagraph (1) of this paragraph, together with subparagraphs (2) or (3), whichever may be applicable.

§ 1399.3 *Rates most favorable to lessee.* Notwithstanding the provisions of § 1399.2, if any construction or road maintenance equipment is leased by the day and the rental price thereof calculated upon a daily basis exceeds the rental price calculated upon a weekly basis or upon a monthly basis, or if such equipment is leased by the week and the rental price thereof calculated upon a weekly basis exceeds the rental price calculated upon a monthly basis, the maximum price shall be the rental price calculated upon the basis most favorable to the lessee. This section shall apply even where the periods of rental are not consecutive, if the lessee in such case is willing to rent such equipment continuously and the interval between the termination of the initial period of rental and the commencement of the subsequent period of rental to the same lessee does not exceed thirty days. In such case, the maximum rental price shall be calculated as if the rental periods were consecutive.

§ 1399.4 *Minimum rental period.* (a) Notwithstanding the provisions of §§ 1399.1 and 1399.2, a lessor who, on April 15, 1942, observed an established practice of requiring a minimum period of rental for any construction or road

maintenance equipment may continue the same practice for such equipment: *Provided*, That such lessor shall, on or before November 2, 1942, unless he has already done so, file a report with the Office of Price Administration, Washington, D. C., explicitly setting forth the nature of such practice, the construction or road maintenance equipment to which such practice applies, and copies of leases, invoices, or published rental lists and other relevant proof showing that such practice was in effect on April 15, 1942.

§ 1399.5 *Maximum rental prices on other bases.* (a) Except as otherwise provided in § 1399.15, Appendix A, for any construction or road maintenance equipment leased on a "per hour" or other basis not provided for in § 1399.2, the maximum rental price shall be:

(1) Determined in accordance with the provisions of paragraph (a) of § 1399.2, if such equipment is in the lessee's possession for not more than 4 consecutive daily periods;

(2) Determined in accordance with the provisions of paragraph (b) of § 1399.2, if such equipment is in the lessee's possession for more than 4 consecutive daily periods but not more than 3 consecutive weekly periods;

(3) Determined in accordance with the provisions of paragraph (c) of § 1399.2, if such equipment is in the lessee's possession for more than 3 consecutive weekly periods.

(b) The provisions of § 1399.3 shall apply to the determination of a maximum rental price pursuant to this section.

§ 1399.6 *Maximum charges for operating or maintenance services—(a) Maximum prices for services with established charges.* (1) If for any operating or maintenance service a supplier had an established charge in effect on March 31, 1942, the maximum charge to any purchaser or lessee for such service shall be the net charge which the supplier would have received on that date from a purchaser or lessee of the same class. "Established charge in effect" means the charge provided in published service charge sheets or the charge regularly quoted, whether such charge was included within the "rental" under a contract on a "fully operated" or similar basis, or was a separate charge for such service. If on March 31, 1942, however, a lessor leased construction or road maintenance equipment on a "fully operated" or similar basis and also on a "bare" basis, the established charge in effect on March 31, 1942, for the operating or maintenance services provided in the contract for such equipment on the "fully operated" or similar basis, when supplied in connection with the rental of such equipment, shall be the difference between the "rental" price in effect on March 31, 1942 of such equipment on the "fully operated" or similar basis and on the "bare" basis. "Net charge" means the amount charged to the purchaser after adjustment for all applicable extra charges, discounts and other allowances in effect on March 31, 1942.

(2) On or before November 2, 1942, every supplier of operating or maintenance services shall file with the Office of Price Administration, Washington, D. C., if he has not already done so, all his established charges in effect on March 31, 1942, for operating or maintenance services, a list of all services for which charges were regularly quoted on March 31, 1942, together with such charges, and a list of all discounts, allowances or extra charges in effect on that date.

(b) *Maximum prices for services without established charges.* (1) If for any operating or maintenance service a supplier had no established charge in effect on March 31, 1942, the maximum charge for such service shall be a charge which has been (i) determined on the basis of the following: Labor rates in effect on March 31, 1942, material prices in effect on that date, not to exceed the applicable maximum prices therefor, and the method of computing service charges, if any, in use by such supplier on that date, or if there was no such method, by a method appropriate to the service to be rendered and resulting in a price bearing a normal relation to the maximum price of a competitive supplier of the same or similar service, (ii) reported pursuant to subparagraph (2) of this paragraph and (iii) either approved or not disapproved by the Office of Price Administration within 30 days after receipt of such report. The Office of Price Administration may disapprove such charge in writing within such 30-day period and upon such disapproval the supplier shall recompute his proposed charge in accordance with the requirements of this paragraph and the suggestions contained in such disapproval and report the same pursuant to subparagraph (2) of this paragraph. Within five days prior to first filing such report and during such 30-day period, but not after such proposed charge shall have been disapproved by the Office of Price Administration, the supplier may quote, contract, or perform such operating or maintenance service at the proposed charge, but final settlement shall be made in accordance with the action of the Office of Price Administration on such report and, if required by the Office of Price Administration, refunds shall be made. If the first proposed charge is disapproved by the Office of Price Administration, the supplier shall not quote, contract, or supply any such service at a charge in excess of the charge suggested by the Office of Price Administration in its disapproval unless and until a proposed charge therefor has been recomputed, reported as herein provided and approved or not disapproved by the Office of Price Administration within 30 days after receipt of such report.

(2) The report required by subparagraph (1) of this paragraph shall be filed with the Office of Price Administration, Washington, D. C., and shall contain a description of the service, the proposed charge, and all relevant data relating to the determination of such charge, including evidence that the proposed charge was determined, so far as possible, on the basis of labor rates, ma-

terial prices and the method of computing charges prescribed in subparagraph (1).

(c) *Flat rate for operating or maintenance services.* (1) If any supplier is required by an agency of the United States or desires to establish a flat hourly rate for any group of operating or maintenance services, the maximum charge for each service in such group shall be a charge which has been (i) calculated in such a way as to accomplish no increase in the weighted average of maximum charges for all services in such group, (ii) reported pursuant to subparagraph (2) of this paragraph, and (iii) either approved in writing or not disapproved by the Office of Price Administration within 30 days after receipt of such report. The Office of Price Administration may disapprove such charge in writing within such 30-day period and upon such disapproval the supplier shall recompute his proposed charge in accordance with the requirements of this paragraph and the suggestions contained in such disapproval and report the same pursuant to subparagraph (2) of this paragraph. Within five days prior to first filing such report and during such 30-day period, but not after such proposed charge shall have been disapproved by the Office of Price Administration, the supplier may quote, contract or perform such operating or maintenance services at the proposed charge, but final settlement shall be made in accordance with the action of the Office of Price Administration on such report and, if required, by the Office of Price Administration, refunds shall be made. If the first proposed charge is disapproved by the Office of Price Administration, the supplier shall not quote, contract, or supply any such services at a charge in excess of the charge suggested by the Office of Price Administration in its disapproval unless and until a proposed charge therefor has been recomputed, reported as herein provided and approved or not disapproved by the Office of Price Administration within 30 days after receipt of such report. If at any time the supplier shall, relative to the entire amount of services then being rendered at a particular flat rate, increase the services which had a low maximum charge hereunder or decrease the services which had a high maximum charge hereunder so that the weighted average of charges for all services then being rendered in such group has been increased over the weighted average of maximum charges for all services in such group, the Office of Price Administration may disapprove such maximum charge, but such disapproval shall not be retroactive.

(2) The report required by subparagraph (1) of this paragraph shall be filed with the Office of Price Administration, Washington, D. C., and shall contain a description of the services to which such flat rate is to be applied, the proposed flat rate, the rates or charges for such services in effect on March 31, 1942, or determined in accordance with paragraph (b) of this section, and an indication of the propor-

tion of the supplier's total business accounted for by each such service.

§ 1399.7 *"Fully operated" and similar contracts.* If any construction or road maintenance equipment is leased on a "fully operated" basis or on any other basis whereby the consideration represents payment both for the rental of such equipment and for the performance of any operating or maintenance service, such consideration shall not exceed the aggregate of the maximum rental price herein provided for such equipment and the maximum charge herein provided for such service, and the lessor shall separately itemize on the invoice the rental price and the service charge. This section shall apply whether or not equipment was leased on a "fully operated" or other lump sum basis in March 1942.

§ 1399.8 *Less than maximum prices.* Lower rental prices and lower charges for operating or maintenance services than those set forth in this Maximum Price Regulation No. 134, may be charged, demanded, paid, or offered.

§ 1399.9 *Evasion.* It shall be a violation of this Maximum Price Regulation No. 134, to effect a price increase above the applicable maximum rental price or maximum service charge by making a charge for transportation of construction or road maintenance equipment to or from the job on a basis not heretofore customarily used, by hereafter establishing or extending a minimum rental period for any construction or road maintenance equipment, by changing an adjunct or an accessory tool of any construction or road maintenance equipment to obtain a capacity higher than the manufacturer's rated capacity for such equipment, or by way of commission, service, or other charge or requirement, or by way of premium or other privilege, or in any other manner.

§ 1399.10 *Records and reports—(a) Records.* Persons subject to this Maximum Price Regulation No. 134, shall keep available for inspection by representative of the Office of Price Administration for a period of two years records of the following:

(1) *By the lessor of construction or road maintenance equipment.* Records of each lease or rental agreement subject hereto showing the name and address of the lessee, the items of equipment leased, the date of the lease, the actual period of lease, the total rental price paid, the method by which it was calculated, the construction project or locality for which the equipment was leased, and any payments to the lessor, in connection with such equipment, in addition to the rental price.

(2) *By the supplier of operating or maintenance services.* Records of all such services performed after the effective date of this Maximum Price Regulation No. 134, showing the name of the person for whom such services were performed, the date of the transaction, identification of the services providing a

reference to a price list or to production records, and the net charge therefor, and, in addition, records showing as precisely as possible the basis upon which maximum charges for operating or maintenance services are determined.

(b) *Additional or substituted records and reports.* Every person subject to this Maximum Price Regulation No. 134, shall keep such other records and submit such other reports, including periodic financial statements, as the Office of Price Administration may from time to time require in writing, either in addition to or in substitution for records and reports herein required.

§ 1399.11 *Petitions for amendment—(a) Amendments.* Persons seeking modification of this Maximum Price Regulation No. 134, or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

(b) *Special amendments—(1) Counties of the State of Michigan.* Notwithstanding the provisions of § 1399.2, the maximum rental price for any construction or road maintenance equipment leased or furnished to the State of Michigan by the Board of County Road Commissioners of any County of the State of Michigan shall be the rental price agreed upon between the State of Michigan and its Counties on July 21, 1942, as set forth in the rate sheets filed with the Office of Price Administration on August 17, 1942.

§ 1399.12 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 134, are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 134, or any price schedule, regulation, or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest District, State, or Regional Office of the Office of Price Administration or its principal office in Washington, D. C.
